Computer technology, such as in the simulated image of light-alloy wheel testing shown above, is also used to achieve the maximum quality of ŠKODA Genuine Accessories products.

#### LIGHT-ALLOY WHEELS

The light-alloy wheels from ŠKODA Genuine Accessories illustrate the combination of quality, functionality and aesthetics. They undergo the same testing as series production wheels, which ensures their high quality and operational safety.

During the development and testing stage every possible situation that may affect the car is taken into account - no matter how extreme.

# INFOTAINMENT

Your new Fabia gets on well with advanced technologies. So make the best of it! Needless to say, the higher the infotainment system level, the more interesting functions you can enjoy. Do you use a smartphone? Then get interesting car data via Smartlink. Do you go on long trips? The Fatigue Detection Assistant will be a perfect co-driver for you.

## USB connecting cable

Mini USB (5JA 051 446H)

Apple 5 (5E0 051 510E)

Micro USB (5JA 051 446J)

## Fatigue Detection<sup>^</sup>

At speeds from 65 to 200 km per hour, the system evaluates data from the power steering sensors. When it detects behaviour that may indicate fatigue (such as more intensive direction corrections via the steering wheel), it sends an audible and visual signal to the driver, recommending to take a break.

ŠKODA Genuine Accessories  
(5E0 054 801)

<sup>^</sup> Safety technologies are not a substitute for the driver's responsibility for the vehicle. Included in optional Travel Pack for Fabia 66TSI; and Sports Pack for Fabia 81TSI.

# COMFORT & UTILITY

Having your own style means having your own ideas of comfort. And because comfort goes hand in hand with utility, our range of accessories is very diverse.

Front mud guards  
ŠKODA Genuine Accessories  
(6V0 075 111)

Rear mud guards  
ŠKODA Genuine Accessories  
(6V6 075 101); for Fabia Wagon (6V9 075 101)

Rear bumper  
protection foil  
ŠKODA Genuine Accessories  
(6V6 061 197); for Fabia  
Wagon (6V9 061 197)

## Child observation mirror

To be fixed above the interior rear-view mirror.  
You can keep an eye on your children in  
the rear seat without having to turn your head.

## Floor Mats

A car is like a second home. In order to keep its interior cosy and clean, you can protect it using textile floor mats. They capture both dirt and moisture, have an anti-slip surface and their shape perfectly fits the space beneath

the passengers' feet. Textile floor mats provide comfort for the feet and further support the later onset of driver fatigue. In addition, the floor mats can be removed at any time, and are easy to clean.

Four-part set (6V2 061 404)

## Holds and lasts

Did you know that the textile floor mats from ŠKODA Genuine Accessories also undergo the so-called "heel test"? This test simulates the action of the driver's foot on the accelerator, sinking the heel 5 mm into the floor mat in both dry and wet conditions at an angle of 45°. The floor mats also undergo an additional load test in the form of a long driving test, and further focus is placed on the brackets fixing the front floor mats to the car upholstery. The tests are designed to verify the proper clip strengths needed to enable comfortable handling by the driver, while keeping the floor mat in place despite the occasional application of force during the drive.

# TRANSPORTATION

When you head off on holiday, set off on a cycling track or even on a ski run, some things you need simply do not belong inside a car - even if they fit. So transport them on the roof for more convenience.

## Basic roof rack

ŠKODA Genuine Accessories (6V6 071 126)

## Transverse roof rack for Fabia Wagon

ŠKODA Genuine Accessories (6V9 071 151)

## Lockable box for skis and snowboards

Capacity of up to 5 pairs of skis or 4 snowboards, volume of 380 litres, successfully passed the City Crash test. Available in two colours.

ŠKODA Genuine Accessories

### ROOF RACKS, HOLDERS AND BOXES

When you get the basic roof rack from ŠKODA Genuine Accessories, your car will transport almost anything. Other roof systems and carriers can be mounted to the basic roof rack, such as bicycle racks, ski and snowboard racks or luggage boxes.

The basic roof rack dimensions and shape are perfectly compatible with the Fabia model. One hundred percent compatibility of the product with the vehicle eliminates problems with installation or use. You will also avoid potential safety hazards that may occur when using non-genuine accessories.

The racks undergo a number of demanding tests. Their resistance to corrosion, loading capacity, strength and durability are tested in various conditions, as well as the subsequent water tightness of the car after their installation.

In black  
(5L6 071 175A)

In silver  
(5L6 071 175)

### Lockable bicycle rack with aluminium profile

The rack consists of an aerodynamically-shaped aluminium profile and holder of matt chrome-plated steel. Easy to mount transverse racks, weight of approximately 3.2kg, maximum load capacity of up to 20kg.

Verified by the City Crash test.

(3TO 071 128B)

No photo:

Lockable bicycle rack with steel profile. (3TO 071 128)

### Lockable ski or snowboard rack with aluminium profile

Capacity of up to 4 pairs of skis or 2 snowboards. Thanks to the large open buttons, the ski rack can be operated even when wearing thick gloves.

The extension function facilitates loading and unloading. Also suitable for wakeboard transport. (LBB 000 001)
